

Quality Policy

The beliefs that guide us in our business are:

- Put the customer in front
- Foster autonomy and mastery amongst people
- Set high standards in communication, learning and tools
- Continuous improvement
- Implement projects in the framework of best practice

By embracing these beliefs, we will:

- Lower the environmental impact from business on the planet's resources to a sustainable level
- Deliver quality in projects
- Have loyal customers that trust us for the long term
- Provide opportunities for people to develop rewarding careers
- Achieve a performance which will organically grow the long-term success of the business
